PopPanel Research Report No. 17 cum
Community Democracy Project Research Report No. 14
cum Community Health Project Research Report No. 10

Survey Date: 26 March to 14 April 2020

Release Date: 15 April 2020

Research Background

Initiated by the Hong Kong Public Opinion Research Institute (HKPORI), the "Community Integration through Cooperation and Democracy, CICD" Project (or the "Community Democracy Project") aims to provide a means for Hongkongers to re-integrate ourselves through mutual respect, rational deliberations, civilized discussions, personal empathy, social integration, and when needed, resolution of conflicts through democratic means. It is the rebuilding of our Hong Kong society starting from the community level following the spirit of science and democracy. For details, please visit: https://www.pori.hk/cicd.

The surveys of Community Democracy (CD) Project officially started on 3 January 2020, targeting members of "HKPOP Panel" established by HKPORI in July 2019, including "Hong Kong People Representative Panel" (Probability-based Panel) and "Hong Kong People Volunteer Panel" (Non-probability-based Panel). This report also represents Report No. 17 under HKPOP Panel survey series, as well as Report No. 14 under the CD Project survey series. Since CD Project aims to gauge the opinions of members in different communities, HKPORI needs to continuously recruit new panel members and map their profile with their respective constituency areas to form "HKPOP Community Panel" including "Community Representative Panel" and "Community Volunteer Panel" first, and then conduct the research.

In view of the outbreak of Novel Coronavirus (also known as "Wuhan Pneumonia") in late January 2020, HKPOP kick-started the "Community Democracy Project: Community Health Module" or "Community Health Project" using a PopPanel survey design to study the public's views on the epidemic and the Government's relevant polices using small communities such as housing estates as the unit of analysis. The survey covers people's views on their perceived chance contracting pneumonia, appraisal on the government's handling of the disease, impacts of the border closure, calls for strike by frontline medical staff, community outbreak, work-from-home arrangement, immigration controls, general use of face masks as well as the government's implementation of relevant policies. The special feature of the Community Health Project is the lowering of respondents' age bracket to 12 years old, in order to obtain more comprehensive samples.

HKPOP sent out emails to all panel members at the beginning of the survey, inviting them to fill in the questionnaire at the designated online platform. Members were allowed to make repeated submissions, while only the last submission of each individual member would be used for analysis.

Contact Information

Herewith the contact information of this Community Democracy survey:

Table 1: Detailed Contact Information

Survey method	Online survey	
Target population	HKPOP Panel samples, namely Hong Kong People Representative Panel (Probability-based Panel) and Hong Kong People Volunteer Panel (Non-probability-based Panel)	
Weighting method	The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by District Councils population figures from Census and Statistics Department; 2) overall voting results, overall voter population and gender-age breakdown from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.	
Date of survey	Mar 26, 3pm – Apr 14, 3pm	
Total sample size	Probability-based Panel: 1,244	Non-probability-based Panel: 12,702
Response rate	Probability-based Panel: 15.8%	Non-probability-based Panel: 19.2%
Sampling error [1]	Sampling error of percentages at +/-3% at 95% confidence level	Sampling error of percentages at +/-1% at 95% confidence level

[1] All error figures in this release are calculated at 95% confidence level. "95% confidence level" means that if we were to repeat a certain survey 100 times with different random samples, we would expect 95 times having the population parameter within the respective error margins calculated. Because of sampling errors, when quoting percentages, journalists should refrain from reporting decimal places, whereas one decimal place can be used when quoting rating figures.

PopPanel Composition

Regarding data collection, survey data from both the Hong Kong People Representative Panel and Hong Kong People Volunteer Panel were collected in the form of online questionnaire.

Among them, the Hong Kong People Representative Panel comes from members of the "HKPOP Panel" recruited in regular random telephone surveys. HKPOP uses "HKPOP Panel" as a framework for conducting surveys for different research projects, any eligible family member in the household may be invited to participate in a specific research.

Meanwhile, members of the Hong Kong People Volunteer Panel are recruited online. Citizens only need to self-register in HKPORI website to participate in online questionnaires.

All panel data collected will be adjusted using rim-weighting, to minimize the effects of self-selection bias or participation bias. Details are documented in the Weighting Procedure section.

Response Rate

HKPOP adopts a set of contact definition in compliance with most international standards. Historically, the social research community in Hong Kong has developed its own set of contact rates, cooperation rates, response rates, and so on. HKPOP normally reports the "success rate" for online surveys.

The calculation of the success rates in this study refers to the following tables.

Table 2: Calculation of success rate of the Hong Kong People Representative Panel (by HKPOP definition)

$$\text{Success rate} = \frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Representative Panel}} \times 100.0\%$$

$$= \frac{1,244}{7,852} \times 100.0\%$$

$$= 15.8\%$$

Table 3: Calculation of success rate of the Hong Kong People Volunteer Panel (by HKPOP definition)

$$\text{Success rate} = \frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Volunteer Panel}} \times 100.0\%$$

$$= \frac{12,702}{66,043} \times 100.0\%$$

$$= 19.2\%$$

Weighting Procedure

HKPOP has continuously adopted and enhanced its weighting method over the past few decades. For this survey, HKPOP adopts a "18 by 3 by 10" weighting procedure involving three one-way variables, namely, district (18 cells), voting record (3 cells) and rating of Chief Executive (13 cells). Basically, the raw data of practically all random telephone surveys conducted by HKPOP are rim-weighted by the figures obtained from the Hong Kong Census and Statistics Department and/or Registration and Electoral Office so that the marginal distribution of the sample in terms of district and voting record would match with that of the general population. The marginal distribution of the sample in terms of "rating of Chief Executive" would match that of the general population in HKPOP's regular tracking surveys. This rim-weighting method (sometimes called raking) is found to be the most practicable method in processing HKPOP's survey data.

Specifically, the districts used for weighting are as follows:

- Central and Western
- Wan Chai
- Eastern
- Southern
- Yau Tsim Mong
- Sham Shui Po
- Kowloon City
- Wong Tai Sin
- Kwun Tong
- Tsuen Wan
- Tuen Mun
- Yuen Long
- North
- Tai Po
- Sai Kung
- Sha Tin
- Kwai Tsing
- Islands

The voting records used for weighting are as follows:

- Candidates of pro-democracy camp
- Candidates of non-pro-democracy camp
- Did not vote / blank/void vote

The "rating of Chief Executive" groupings used for weighting are as follows:

- 0 mark
- 1-9 mark(s)
- 10-19 marks
- 20-29 marks
- 30-39 marks
- 40-49 marks
- 50 marks
- 51-60 marks
- 61-70 marks
- 71-80 marks
- 81-90 marks
- 91-99 marks
- 100 marks

Quantitative Analysis Results

Results of the quantitative analyses of the Community Health survey are as follows:

Table 4: Survey results of Hong Kong general public - Q1, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=1,244)			Hong Kong People Volunteer Panel (Base=12,702)		
	Don't know / hard to say	Try to predict	Average	Don't know / hard to say	Try to predict	Average
Q1 What do you think is your chance of being infected with **novel coronavirus pneumonia**, also known as Wuhan pneumonia, in the coming one month?	30%	**70%**	**30%**	22%	**78%**	**28%**

* Answer options included: 0-10 rating scale, others, and don't know / hard to say

Table 5: Survey results of Hong Kong general public subgroup^ – Q2, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=889)				Hong Kong People Volunteer Panel (Base=9,159)			
	Support	Half-half	Oppose	Mean	Support	Half-half	Oppose	Mean
Q2 To reduce social contact and cross infection, the government has made **regulations prohibiting gatherings of more than four people in public places**. How much do you support or oppose this restriction?	**55%**	23%	21%	3.6	**53%**	23%	23%	3.5

* Answer options included: very much support, somewhat support, half-half, somewhat oppose, very much oppose and don't know / hard to say

^ Survey period: 7-14/4/2020

Table 6: Survey results of Hong Kong general public subgroup^ – Q3, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=889)				Hong Kong People Volunteer Panel (Base=9,159)			
	Agree	Half-half	Disagree	Mean	Agree	Half-half	Disagree	Mean
Q3 There is a view in the society that **the police and other law enforcement agencies have political considerations when enforcing laws and regulations related to the pandemic, and have deviated from the principle of fairness**. How much do you agree or disagree with this view?	**55%**	10%	34%	3.4	**61%**	4%	31%	3.5

* Answer options included: very much agree, somewhat agree, half-half, somewhat disagree, very much disagree and don't know / hard to say

^ Survey period: 7-14/4/2020

Table 7: Survey results of Hong Kong general public subgroup^ – Q4, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=889)				Hong Kong People Volunteer Panel (Base=9,159)			
	Agree	Half-half	Disagree	Mean	Agree	Half-half	Disagree	Mean
Q4 There is a view in the society that **if the number of confirmed cases each day falls to a single digit, we can go back to work as normal**. How much do you agree or disagree with this view?	**35%**	34%	28%	3.0	28%	**39%**	30%	2.9

* Answer options included: very much agree, somewhat agree, half-half, somewhat disagree, very much disagree and don't know / hard to say

^ Survey period: 7-14/4/2020

Table 8: Survey results of Hong Kong general public subgroup^ – Q5, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=889)				Hong Kong People Volunteer Panel (Base=9,159)			
	No more newly confirmed case in 14 consecutive days	No more newly confirmed local case	No more newly confirmed local or imported case	Others	No more newly confirmed case in 14 consecutive days	No more newly confirmed local case	No more newly confirmed local or imported case	Others
Q5 What do you think should the pandemic become before it is appropriate for us to go back to work as normal?	**43%**	17%	11%	26%	**46%**	15%	10%	27%

* Answer options included: number of recovered cases exceeds confirmed cases each day, number of confirmed cases each day falls to a single digit, no more newly confirmed local case, no more newly confirmed local or imported case, no more newly confirmed case in 14 consecutive days, others and don't know / hard to say

^ Survey period: 7-14/4/2020

Table 9: Survey results of Hong Kong general public subgroup^# – Q6, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=172)				Hong Kong People Volunteer Panel (Base=2,079)			
	Work remotely/ Work from home	Flexible working hours at workplace	On leave (no pay)	Staggered shifts	Work remotely/ Work from home	Staggered shifts	Flexible working hours at workplace	On leave (paid)
Q6 Did you or your company engage in any of the following **workplace practices**?	**75%**	46%	35%	27%	**83%**	35%	28%	18%

* Multiple answers allowed, answer options included: work remotely/ Work from home, staggered shifts, flexible working hours at workplace, on leave (paid), on leave (no pay), quarantine or isolation and others

^ Survey period: 31/3-7/4/2020

The subsample only includes 1. Being full-time or part-time workers before and after the Lunar New Year and also 2. Fewer working hours in the past 7 days than that before the Lunar New Year.

Table 10: Survey results of Hong Kong general public subgroup^# – Q7, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=209)				Hong Kong People Volunteer Panel (Base=1,586)			
	Agree	Half-half/ neutral	Disagree	Don't know/ hard to say	Agree	Half-half/ neutral	Disagree	Don't know/ hard to say
Q7 How much do you agree or disagree with the following statement: My child has made **sufficient academic progress** via online learning?	5%	20%	**74%**	2.0	19%	24%	**53%**	2.5

* Answer options included: strongly agree, agree, half-half / neutral, disagree, strongly disagree and don't know / hard to say

^ Survey period: 31/3-7/4/2020

The subsample only includes parents with children aged 3-18 who are currently attending kindergarten, primary or secondary school.

Table 11: Survey results of Hong Kong general public subgroup^# – Q8, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=209)				Hong Kong People Volunteer Panel (Base=1,586)			
	Agree	Half-half/ neutral	Disagree	Don't know/ hard to say	Agree	Half-half/ neutral	Disagree	Don't know/ hard to say
Q8 **School closure is needed** as a control measure for novel coronavirus pneumonia in Hong Kong	**94%**	2%	4%	4.5	**93%**	<1%	7%	4.5

* Answer options included: strongly agree, agree, half-half / neutral, disagree, strongly disagree and don't know / hard to say

^ Survey period: 31/3-7/4/2020

\# The subsample only includes parents with children aged 3-18 who are currently attending kindergarten, primary or secondary school.

Table 12: Survey results of Hong Kong general public – Q9, by panel type

HKPORI Epidemic Survey

Hong Kong Public Opinion Research Institute is politically neutral, we welcome different opinions. All personal data will be kept strictly confidential. You can fill in the questionnaire again at any time to express your latest views, and your last submission will be collated. For enquiries, please email us at panel@pori.hk .

*Required

(Registered member) Panel ID: *

(Please do not alter the pre-filled ID)

_____

(Registered member) Invitation token: *

(Please do not alter the pre-filled token)

_____

(New member) Please first register as a HKPOP Panel member at https://www.pori.hk/hkpop-panel *

◯ Already registered as a member earlier (Please go to the survey platform by clicking on the designated hyperlink sent to you by email)

◯ Have just registered as a member

◯ Not yet registered as a member, and will register after completing the survey (Please note: Your response will be removed if you have not yet successfully registered as a member at the time of data analysis)

Eligibility Confirmation

(New member)

Email used / will be used in registration: *

_____

Are you a Hong Kong resident aged 12 or above? *

○   Yes

○   No

Your District Council

If you have answered the following questions in this survey series since late January, you may choose to skip the relevant

questions on this page. We will use the past data you provided in this survey series for the analysis.

Your District Council:

○   Central & Western District

○   Wan Chai

○   Eastern District

○   Southern District

○   Yau Tsim Mong

○   Sham Shui Po

○   Kowloon City

○   Wong Tai Sin

○   Kwun Tong

Opinion Questions

What do you think is your chance of being infected with novel coronavirus pneumonia, also known as Wuhan pneumonia, in the coming one month?

(Please select the closest answer. If you have another answer, please fill in the last item.)

○   Certainly not

○   10% chance

○   20% chance

○   30% chance

○   40% chance

○   50% chance

○   60% chance

○   70% chance

○   80% chance

○   90% chance

○   100% chance (Certainly will)

○   Don't know / hard to say

○   Other: _____

There is a view in the society that if the number of confirmed cases each day falls to a single digit, we can go back to work as normal. How much do you agree or disagree with this view?

○   Very much agree

○   Somewhat agree

○   Half-half

○   Somewhat disagree

○   Very much disagree

○   Don't know / hard to say

What do you think should the pandemic become before it is appropriate for us to go back to work as normal?

○   Number of recovered cases exceeds confirmed cases each day

○   Number of confirmed cases each day falls to a single digit

○   No more newly confirmed local case

○   No more newly confirmed local or imported case

○   No more newly confirmed case in 14 consecutive days

○   Don't know / hard to say

○   Other: _____

How satisfied or dissatisfied are you with the government's performance in handling novel coronavirus pneumonia?

○   Very much satisfied

○   Somewhat satisfied

○   Half-half

○   Somewhat dissatisfied

○   Very much dissatisfied

○   Don't know / hard to say

To reduce social contact and cross infection, the government has made regulations prohibiting gatherings of more than four people in public places. How much do you support or oppose this restriction?

○   Very much support

○   Somewhat support

○   Half-half

○   Somewhat oppose

○   Very much oppose

○   Don't know / hard to say

There is a view in the society that the police and other law enforcement agencies have political considerations when enforcing laws and regulations related to the pandemic, and have deviated from the principle of fairness. How much do you agree or disagree with this view?

○   Very much agree

○   Somewhat agree

○   Half-half

○   Somewhat disagree

○   Very much disagree

○   Don't know / hard to say

How long can you rely on your current face mask reserve?

(Please select the answer that best describes your situation)

○   More than three months

○   Three months

○   Two months

○   One and a half months

○   One month

○   Three weeks

○   Two weeks

○   One week

○   5 to 6 days

○   3 to 4 days

○   1 to 2 day(s)

○   No reserve at all / already no mask

○   Don't know / hard to say

How would you describe your usage of face mask? Please try to use past 7 days as your reference.

(Please select the answer that best describes your situation)

○   More than 4 masks per day

○   4 masks per day

○   3 masks per day

○   2 masks per day

○   1 mask per day

○   1 mask every 2 days

○   1 mask every 3 days

○   1 mask for more than 3 days

○   I do not use mask at all / already no mask to use

○   Don't know / hard to say

Please rate on a scale of 0 to 100 your extent of support to the Chief Executive Carrie Lam, with 0 indicating absolutely not supportive, 100 indicating absolutely supportive and 50 indicating half-half. How would you rate the Chief Executive Carrie Lam?

(To opt for "don't know / hard to say", please input 8888)

_____

<mark>Other Opinions</mark>

Please provide your suggestions on the environmental hygiene and public health of your estate or community, so that we can relay them to relevant District Councillors or authorities:

(If you do not have any suggestion, or do not want to revise your previous suggestion, please leave this space blank. Comments submitted before Apr 7 would not be counted in this round of survey, while for repeated submissions after Apr 7, only the last non-empty submission will be included in the final results.)

_____

Do you have any needs which you want us to forward to your District Councillor or other persons you name here? (Please write down your contacts)

(The request you make here is not part of our study, we simply want to bridge people who need help with people who can help.)
