PopPanel Research Report No. 14 & Community Democracy Project Research Report No. 11

Community Health Module Report No. 7

Survey Date: 25 February to 5 March 2020

Release Date: 6 March 2020

Copyright of this report was generated by the Hong Kong Public Opinion Program (HKPOP) and opened to the world. HKPOP proactively promotes open data, open technology and the free flow of ideas, knowledge and information. The predecessor of HKPOP was the Public Opinion Programme at The University of Hong Kong (HKUPOP). “HKPOP” or “POP” in this publication may refer to HKPOP or HKUPOP as the case may be.

Research Background

Initiated by the Hong Kong Public Opinion Research Institute (HKPORI), the “Community Integration through Cooperation and Democracy, CICD” Project (or the “Community Democracy Project”) aims to provide a means for Hongkongers to re-integrate ourselves through mutual respect, rational deliberations, civilized discussions, personal empathy, social integration, and when needed, resolution of conflicts through democratic means. It is the rebuilding of our Hong Kong society starting from the community level following the spirit of science and democracy. For details, please visit: <https://www.pori.hk/cicd>.

The surveys of Community Democracy (CD) Project officially started on 3 January 2020, targeting members of “HKPOP Panel” established by HKPORI in July 2019, including “Hong Kong People Representative Panel” (Probability-based Panel) and “Hong Kong People Volunteer Panel” (Non-probability-based Panel). This report also represents Report #11 under HKPOP Panel survey series, as well as Report #8 under the CD Project survey series. Since CD Project aims to gauge the opinions of members in different communities, HKPORI needs to continuously recruit new panel members and map their profile with their respective constituency areas to form “HKPOP Community Panel” including “Community Representative Panel” and “Community Volunteer Panel” first, and then conduct the research.

In view of the outbreak of Novel Coronavirus (aka “Wuhan Pneumonia”, HKPOP kick-started “Community Democracy Project: Community Health Module” or “Community Health Project” by PopPanel survey study and community-based analysis, in order to understand the public’s views on the epidemic and the Government’s relevant policies, using small communities such as housing estates as the unit of analysis. The survey covers people’s views on their perceived chance contracting pneumonia, appraisal on the government’s handling of the disease, impacts of the border closure, calls for strike by frontline medical staff, people’s worry about a community outbreak and their home-working conditions. The special feature of Community Health Module is that, all target respondents are set at 12 years or older, to provide comprehensive data to public.

HKPOP sent out emails to all panel members at the beginning of the survey, inviting them to fill in the questionnaire at the designated online platform. Members were allowed to make repeated submissions, while only the last submission of each individual member would be used for analysis.

Contact Information

Herewith the contact information of this Community Democracy survey:

Table 1: Detailed Contact Information

Survey method	Online survey	
Target population	HKPOP Panel samples, namely Hong Kong People Representative Panel (Probability-based Panel) and Hong Kong People Volunteer Panel (Non-probability-based Panel)	
Weighting method	The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by district councils population figures from Census and Statistics Department; 2) overall voting results, overall voter population and gender-age breakdown from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.	
Date of survey	Feb 25, PM – Mar 5, 3pm	
Total sample size	Probability-based Panel: 1,023	Non-probability-based Panel: 13,372
Response rate	Probability-based Panel: 13.4%	Non-probability-based Panel: 20.9%
Sampling error ^[1]	Sampling error of percentages at +/-3% at 95% confidence level	Sampling error of percentages at +/-1% at 95% confidence level

[1] All error figures in this release are calculated at 95% confidence level. “95% confidence level” means that if we were to repeat a certain survey 100 times with different random samples, we would expect 95 times having the population parameter within the respective error margins calculated. Because of sampling errors, when quoting percentages, journalists should refrain from reporting decimal places, whereas one decimal place can be used when quoting rating figures.

PopPanel Composition

Regarding data collection, survey data from both the Hong Kong People Representative Panel and Hong Kong People Volunteer Panel were collected in the form of online questionnaire.

Among them, the Hong Kong People Representative Panel comes from members of the “HKPOP Panel” recruited in regular random telephone surveys. HKPOP uses “HKPOP Panel” as a framework for conducting surveys for different research projects, any eligible family member in the household may be invited to participate in individual research.

Meanwhile, members of the Hong Kong People Volunteer Panel are recruited online. Citizens only need to self-register in HKPORI website to participate in online questionnaires.

All panel data collected will be adjusted using rim-weighting, to ensure the representativeness of the data would not be affected by self-selection bias or participation bias. Details are documented in the Weighting Procedure section.

Response Rate

HKPOP adopts a set of contact definition in compliance with most international standards. Historically, the social research community in Hong Kong has developed its own set of contact rates, cooperation rates, response rates, and so on. HKPOP normally reports the “success rate” for online surveys.

The calculation of the success rates in this study refers to the following tables.

Table 2: Calculation of success rate of the Hong Kong People Representative Panel (by HKPOP definition)

Success rate	
=	$\frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Representative Panel}} \times 100.0\%$
=	$\frac{1,023}{7,637} \times 100.0\%$
=	13.4%

Table 3: Calculation of success rate of the Hong Kong People Volunteer Panel (by HKPOP definition)

Success rate	
=	$\frac{\text{Successful cases}}{\text{Panel size of the Hong Kong People Volunteer Panel}} \times 100.0\%$
=	$\frac{13,372}{64,030} \times 100.0\%$
=	20.9%

Weighting Procedure

HKPOP has continuously adopted and enhanced its weighting method over the past few decades. For this survey, HKPOP adopts a “18 by 3 by 10” weighting procedure involving three one-way variables, namely, district (18 cells), voting record (3 cells) and rating of Chief Executive (13 cells). Basically, the raw data of practically all random telephone surveys conducted by HKPOP are rim-weighted by the figures obtained from the Hong Kong Census and Statistics Department and/or Registration and Electoral Office so that the marginal distribution of the sample in terms of district and voting record would match with that of the general population. The marginal distribution of the sample in terms of “rating of Chief Executive” would match that of the general population in HKPOP’s regular tracking surveys. This rim-weighting method (sometimes called raking) is found to be the most practicable method in processing HKPOP’s survey data.

Specifically, the districts used for weighting are as follows:

- Central and Western
- Wan Chai
- Eastern
- Southern
- Yau Tsim Mong
- Sham Shui Po
- Kowloon City
- Wong Tai Sin
- Kwun Tong
- Tsuen Wan
- Tuen Mun
- Yuen Long
- North
- Tai Po
- Sai Kung
- Sha Tin
- Kwai Tsing
- Islands

The voting records used for weighting are as follows:

- Candidates of pro-democracy camp
- Candidates of non-pro-democracy camp
- Did not vote / blank/void vote

The “rating of Chief Executive” groupings used for weighting are as follows:

- 0 mark
- 1-9 mark(s)
- 10-19 marks
- 20-29 marks
- 30-39 marks
- 40-49 marks
- 50 marks
- 51-60 marks
- 61-70 marks
- 71-80 marks
- 81-90 marks
- 91-99 marks
- 100 marks

Quantitative Analysis Results

Results of the quantitative analyses of the Community Health survey are as follows:

Table 4: Survey results of Hong Kong general public - Q1, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=1,023)			Hong Kong People Volunteer Panel (Base=13,372)		
	Don't know / hard to say	Try to predict	Average	Don't know / hard to say	Try to predict	Average
Q1 What do you think is your chance of being infected with Wuhan pneumonia in the coming one month?	27%	72%	27%	26%	74%	26%

* Answer options included: 0-10 rating scale, and don't know / hard to say

Table 5: Survey results of Hong Kong general public – Q2, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=1,023)				Hong Kong People Volunteer Panel (Base=13,372)			
	Satisfied	Half-half	Dissatisfied	Mean value	Satisfied	Half-half	Dissatisfied	Mean value
Q2 How satisfied or dissatisfied are you with the government's performance in handling the Wuhan pneumonia epidemic?	21%	12%	67%	2.0	15%	8%	76%	1.8

* Answer options included: very much satisfied, somewhat satisfied, half-half, somewhat dissatisfied, very much dissatisfied and don't know / hard to say

Table 6: Survey results of Hong Kong general public – Q3, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=28 [#])				Hong Kong People Volunteer Panel (Base=8,944)			
	Worried	Half-half	Not worried	Mean value	Worried	Half-half	Not worried	Mean value
Q3 How much do you worry about a community outbreak of Wuhan pneumonia happening in Hong Kong?	93%	3%	4%	4.4	59%	20%	18%	3.7

* Answer options included: very much worried, somewhat worried, half-half, not quite worried, not at all worried and don't know / hard to say

Raw sample size less than 30, figures are for reference only.

Table 7: Survey results of Hong Kong general public – Q4, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=28 [#])			Hong Kong People Volunteer Panel (Base=8,944)		
	Yes, worked at home for at least one day	No, have been returning to office as usual	Not applicable (including non-working people, etc.)	Yes, worked at home for at least one day	No, have been returning to office as usual	Not applicable (including non-working people, etc.)
Q4 Since Lunar New Year, have you been excused from returning to office and work at home for at least one day because of the epidemic?	34%	1%	65%	42%	18%	38%

* Answer options included: yes - worked at home for at least one day, no - have been returning to office as usual, not applicable (including non-working population, people who do not work at office, etc.) and don't know / hard to say

Raw sample size smaller than 30, figures are for reference only.

Table 8: Survey results of Hong Kong general public – Q5, by panel type

Opinion Questions*	Hong Kong People Representative Panel (Base=28 [#])				Hong Kong People Volunteer Panel (Base=8,944)			
	Lower than at office	Similar	Higher than at office	Mean value	Lower than at office	Similar	Higher than at office	Mean value
Q5 Whether or not you have worked at home, what do you think about its efficiency?	70%	17%	7%	2.3	57%	23%	7%	2.2

* Answer options included: much lower than working at office, somewhat lower than working at office, similar to working at office, somewhat higher than working at office, much higher than working at office and don't know / hard to say

Raw sample size smaller than 30, figures are for reference only.

(Please select the answer that best describes your situation)

- More than three months

- Three months
- Two months
- One and a half months
- One month
- Three weeks
- Two weeks
- One week
- 5 to 6 days
- 3 to 4 days
- 1 to 2 day(s)
- No reserve at all / already no masks
- Don't know / hard to say

How would you describe your usage of face mask? Please try to use past 7 days as your reference.

(Please select the answer that best describes your situation)

- More than 4 masks per day
- 4 masks per day
- 3 masks per day
- 2 masks per day
- 1 mask per day
- 1 mask every 2 days
- 1 mask every 3 days
- 1 mask for more than 3 days
- I do not use masks at all / already no masks to use
- Don't know / hard to say

Which of the following anti-epidemic materials do you need most now?

(Multiple answers allowed)

- Face mask
- Hand sanitizer
- Bleach
- Hand wash
- Ethyl alcohol
- Disinfecting wipes
- Disinfecting spray
- Antiseptic disinfectant
- Not in need of any anti-epidemic material
- Don't know / hard to say
- Other: _____

Since Lunar New Year, have you been excused from returning to office and work at home for at least one day because of the epidemic?

- Yes, worked at home for at least one day
- No, have been returning to office as usual
- Not applicable (including non-working population, people who have not been working at office, etc.)
- Don't know / hard to say

Whether or not you have worked at home, what do you think about its efficiency?

(Please select the closest answer)

- Much lower than working at office
- Somewhat lower than working at office
- Similar to working at office
- Somewhat higher than working at office
- Much higher than working at office
- Don't know / hard to say

Please rate on a scale of 0 to 100 your extent of support to the Chief Executive Carrie Lam, with 0 indicating absolutely not supportive, 100 indicating absolutely supportive and 50 indicating half-half. How would you rate the Chief Executive Carrie Lam? [used for weighting purpose only]

(To opt for "don't know / hard to say", please input 8888)

Other Opinions

Please provide your suggestions on the environmental hygiene and public health of your estate or community, so that we can relay them to relevant District Councillors or authorities:

(If you do not have any suggestion, or do not want to revise your previous suggestion, please leave this space blank. Comments submitted before Feb 25 would not be counted in this round of survey, while for repeated submissions after Feb 25, only the last non-empty submission will be included in the final results.)

Do you have any needs which you want us to forward to your District Councillor or other persons you name here? (Please write down your contacts)

(The request you make here is not part of our study, we simply want to bridge people who need help with people who can help.)

Personal Information**Gender**

- Male
 Female

Age

Age range

(If prefer not to provide exact age)

- 12 - 14
 15 - 17
 18 - 19
 20 - 24
 25 - 29
 30 - 34
 35 - 39
 40 - 44
 45 - 49
 50 - 54
 55 - 59
 60 - 64
 65 - 69
 70 or above

Educational attainment

(The highest level attended, regardless of whether you have completed the course, including what you are attending)

- No formal schooling / kindergarten
 Primary
 Lower secondary (Secondary 1 to 3)
 Upper secondary (Secondary 4 to 7 / DSE / Yi Jin)
 Tertiary: non-degree course (including diploma / certificate / sub-degree course)
 Tertiary: degree course (including bachelor degree / postgraduate school)

Are you working full-time, working part-time, self-employed, or not working?
