民生大聯盟發言人章彤輝博士指出，「與一個月前相比，近日新聞中關於本地新冠肺炎的報導少了很多。相對地，『疫苗』和『通關』安排則不時被提及。特首亦提及與內地免隔離通關的兩個條件，包括疫苗接種率達70%，以及需維持『外防輸入』的防控策略，巧妙地把疫苗與通關扣上了循環因果關係。但是，對旅遊業來說，70%更像是目前的失業比例。政府官員看到的是數字，但業界看到的是末日。」

Dr Tung-fai Cheung, Spokesman of Alliance of Revitalizing Economy and Livelihood, observed, "There is less news about local COVID-19 compared with one month ago. On the other hand, 'vaccination' and 'border crossing (to mainland)' have been mentioned much more. Our Chief Executive said there are 2 prerequisites for crossing border quarantine waiver: 1) over 70% of vaccine coverage, and 2) maintain the strategy of 'preventing the importation of cases', thereby skilfully placing vaccination and border crossing in a causal relationship. However, to the tourism industry, 70% looks more like the current unemployment rate. The government officials see the figures, but the industry sees the doom."
