香港教育中心商會副主席任偉豪指出：「根據上星期五香港民研公佈有關復課安排的調查結果顯示，小學和中學家長分別有71%和58%認為維持半日上課會導致不便。另一方面，小學和中學家長分別有44%和71%贊成九月時恢復全日上課。雖然較多小學家長比中學家長感到不便，但有趣的是，小學家長比中學家長較少贊成恢復全日上課。可能小學家長認為雖然半日上課會導致較多不便，但因小學生未能接種疫苗，所以全日課較為危險。也有可能小學家長認為半日課所換來的是較多時間親子相處、參加課外活動、溫習和休息，所以就算是較多不便，也覺值得。」

Vice Chairman of The Hong Kong Chamber of Education Centres Yam Wai Ho observed, “According to the results of the class resumption survey released by PORI last Friday, 71% and 58% of parents in primary and secondary schools considered it inconvenient to maintain half-day classes. On the other hand, 44% and 71% of parents in primary and secondary schools respectively agreed to resuming full-day classes in September. Although primary school parents felt more inconvenient than secondary school parents, it is interesting to note that they were less in favour of having full-day classes. Perhaps they thought that although half-day schooling would be more inconvenient, full-day schooling would be more dangerous for primary students who could not be vaccinated. Another possible reason is that primary school parents thought that half-day schooling would provide more time to cultivate parent-child relationship, for children to participate in extracurricular activities, revisions and rests, so they still felt it worth practising.”
