復興經濟民生大聯盟成員任偉豪指出:「英國已經成功實行『與病毒共存』策略,撤銷了『口罩令』等大部份的防疫措施,真正回復正常生活,英國市民為此歡呼慶祝,相信不少實行『與病毒共存』的國家都會陸續步入此階段,包括鄰近的新加坡和韓國。這邊廂的香港卻正為殺死寵物而憤怒、新春不能團聚而失望、停課而令學生失去全面的學習機會、追究防疫基金派得夠不夠而議論紛紛、追究誰沒有做好防疫而互相指責、為停業裁員而生活不繼、每天生活得戰戰兢兢。香港抗疫至今已經踏入第三年了,我們十年後是否還在抵抗第二十波,是否還需要每三四個月就要停業兩三個月,而且永不能出國旅遊,而國外的世界卻像平衡時空般快活地生活呢?」

Yam Wai Ho, member of Alliance of Revitalizing Economy and Livelihood observed, "The UK has successfully implemented the strategy of 'coexisting with the virus', revoked most of the epidemic prevention measures such as the 'mask order', and truly returned to normal life. It is believed that many countries that implement 'coexistence with the virus' strategy will gradually enter this stage, including neighboring countries like Singapore and South Korea. On the other side, Hong Kongers are angry about killing pets, disappointed that we can't reunite in CNY, stopping schools, discuss about whether the epidemic prevention fund has been allocated enough, blame for not doing well in epidemic prevention, suffer from the closure of business and layoffs every day. Hong Kong has entered its third year of fighting the epidemic. Are we still resisting the 20th wave in ten years? Do we still need to suspend business for two or three months in every three or four months, and will we never be able to travel abroad? Meanwhile, people out of HK are living happily like parallel universe."
