	香港民研意見群組成員 HKPOP Panel
調查日期 Survey date	17/12 15:00 – 27/12 15:00
調查方法 Survey method	以電郵接觸群組成員，並於網上完成調查 Online survey
訪問對象 Target population	十二歲或以上的香港市民 Hong Kong residents aged 12+
總成功樣本 Total sample size	5,063
回應比率 Response rate	5.7%
抽樣誤差 Sampling error	95% 置信水平，百分比誤差 +/-1% Sampling error of percentages at +/-1% at 95% confidence level
加權方法 Weighting method	按照1) 政府統計處提供的全港人口年齡及性別分佈統計數字、各區議會人口數字； 2) 選舉事務處提供的區議會選舉結果；3) 常規調查中的特首評分分佈數字，以 「反覆多重加權法」作出調整。 The figures are rim-weighted according to 1) gender-age distribution of Hong Kong population and by District Councils population figures from Census and Statistics Department; 2) Voting results of District Councils Election from Registration and Electoral Office; 3) rating distribution of Chief Executive from regular tracking surveys.

復興經濟民生大聯盟成員任偉豪指出：「一眾高官和立法會議員們自己都心裡明白病毒並不可怕，否則也不敢參加近兩百人的派對。我認為他們是親身示範了『與病毒共存』的做法。不害怕疫症的香港人應要求政府放寬限聚令，令香港人也可以和高官一樣繼續開派對。我始終提倡『與病毒共存』的方式對待疫症，我相信商界也有很多人和我抱有相同想法。事實上已經有愈來愈多科學和醫學數據顯示Omicron並不可怕，需要恐懼的是『恐懼』本身。」

Yam Wai Ho, member of Alliance of Revitalizing Economy and Livelihood observed, “Many senior government officials and members of the Legislative Council knew that Omicron was not terrible, otherwise they would not have dared to attend a party of nearly 200 people. I think they are demonstrating the practice of ‘living with the virus’. Hongkongers who are not afraid of the epidemic should ask the government to relax the restrictions on gatherings, so that Hongkongers can continue to party like senior government officials. I have always advocated a ‘coexistence with the virus’ approach in dealing with the epidemic, and I believe there are many people in the business community who share the same thoughts as me. In fact, there are more and more scientific and medical data showing that Omicron is not scary, what needs to be feared is ‘fear’ itself.”
