復興經濟民生大聯盟成員任偉豪指出：「論到動態清零，抗疫去到現實執行層面時，盲目追隨一個不可能完成的目標，後果就是徒勞無功，就像現在醫院不夠位把全港的確診市民全都收留，也像竹篙灣不夠位困住所有密切接觸者。現在香港就像一隻快要沉沒的大船，因來自船公司的命令，船長正要求船員和乘客用手掌把湧入的海水『清零』，最後只會令大家都筋疲力盡跟隨破船沉入海底。早知如此，倒不如留下力氣跳入海中游泳。不要忘記，我們本已懂得游泳了好幾千年了。」

Yam Wai Ho, member of Alliance of Revitalizing Economy and Livelihood observed, “When the anti-epidemic comes to the actual implementation level, blindly following an impossible goal will result in futile results, just as there are not enough hospitals in Hong Kong to take in all the confirmed citizens in Hong Kong, and it is also like Penny Bay where there is not enough to place all close contacts. Now Hong Kong is like a big ship that is about to sink. Due to the order from the shipping company, the captain is asking the crew and passengers to ‘zero’ the water with their palms. In the end, everyone will be exhausted and follow the broken ship sink into the sea. It would be better to keep the strength to jump into the sea and swim. Don’t forget, we’ve known how to swim for thousands of years.”
