Survey Introduction: Currently, the Home Affairs Department will open community centres as temporary shelters for the needy during extreme weather conditions such as storms or very hot weather. In addition, there is a temporary cold shelter / night heat shelter in each district, as well as a temporary shelter for typhoons and landslides in almost every district.

† The mean value is calculated by quantifying all individual responses into 1, 2, 3, 4, 5 marks according to their degree of support level, where 1 is the lowest and 5 the highest, and then calculate the sample mean.
